How does Suno work?

AI Music Generation Pipeline:

1. You input a prompt - like "a relaxing acoustic song about sunshine."
2. Suno's model generates lyrics, vocals, instruments, and melody.
3. 🎵 The result: A fully produced original track - in under a minute!

Optional: Customize with your own lyrics, title, or genre.

Examples of Prompts

Try these sample prompts:

- "An upbeat pop song about summer love"
- "A spooky Halloween-themed rock song"
- "Lo-fi hip-hop instrumental for studying"
- "A country song about growing up in a small town"

 You can also upload lyrics, name your song, and specify vocal style!

Pros & Cons

✔ Pros	⚠ Cons
Easy to use	No fine control over musical details
No musical background required	AI vocals can sound synthetic
Great for idea generation	Limited genres/vocal options (for now)
Fun and fast creative process	Not for professional production (yet)
